

Target skills. **ACCELERATE GROWTH.**

Students who need teacher-led instruction can acquire grade-level skills with the right support! Now educators have a research- and evidence-based intervention curriculum to boost the success of Response to Intervention (RTI) programs and IEPs with n2y's Inspire. Teachers get the assessment and instructional resources they need to better identify and address skill gaps. And students build confidence and independence through a gradual release of responsibility instructional approach rather than sit and get.

Skill-based intervention to **CLOSE LEARNING GAPS**

DRIVE MEANINGFUL OUTCOMES

Close learning gaps with a single solution that guides students who need teacher-led instruction to acquire the grade-level skills they need for success, unlike sit-and-get solutions.

EMPOWER EDUCATORS

Enhance instructional efficiency and impact with targeted, differentiated resources that simplify the entire intervention process, from assessment to lesson plans and reporting.

ENSURE EFFICACY AND COMPLIANCE

Easily track and report data on student progress and growth to demonstrate RTI effectiveness and IEP compliance.
